

Homemade Chicken Jerky for Dogs

What you need:

Chicken breasts

How to make:

- Preheat your oven to 200° F
- Grease your baking sheet(s) lightly
- Trim the excess fat off the chicken breasts
- Slice the chicken into 1/8" – 1/4" slices, the thinner the better and if possible slice with the grain.
- Place the strips on your greased baking sheet
- Bake in the oven for at least 2 hours, time may vary depending on your oven, thickness of the slices and your cookie sheet
- Remove from the oven and let the strips cool on wire racks – cool them in a pet safe area or they will no longer be there when they are cool

***Your dog may want to eat them all at once but it is best to save at least some in an airtight container in the refrigerator for up to 3 weeks. If you have cats, they are safe for cats to eat as well.
