

Emma's Easter Cookies

Ingredients:

- carrots – enough to make 2 cups when grated (I used about 5 larger carrots)
- 1/2 cup dry dog food
- 2 small jars of beef or chicken baby food (2 oz size)
- 1 tbsp honey
- 1/2 cup plain non-fat yogurt
- 1 tsp baking powder
- 2 cups whole wheat flour

Directions:

- Grind the dog food in a blender or food processor until it is like a powder.
- Grate the carrots until you have 2 cups of them, the coarser they are the more they will show in the finished cookies.
- In a large bowl, mix the grated carrots, ground dog food, baby food, honey and yogurt. Blend well.
- Add the baking powder.
- Slowly add the whole wheat flour. Knead the dough with your hands for three to five minutes. The dough will be "chunky" because of the carrots.
- On a flat, floured surface roll out dough to desired thickness. Using Easter cookie cutters, cut out shapes and place on a greased cookie sheet.
- Brush with egg wash if you want a shiny appearance.
- Bake at 400 degrees for 20 minutes or until bottoms are golden brown.

Once cookies are cooled, enjoy!
