

New Years Eve Confetti Balls

Ingredients:

½ of a large banana, mashed
½ cup all natural peanut butter
½ cup dried milk powder
¼ cup honey
¼ cup oatmeal
unsweetened shredded coconut

Directions:

Now these are so easy to make, you don't even have to bake them. Simply combine all the ingredients except for the coconut in a mixing bowl. Add the honey slowly as you may not need it all. Mix until the mixture is firm enough to form a ball. You can make the balls any size you want, depending on the size of your dog.

Put coconut in a bowl or on a plate, and roll the balls in the coconut until they are coated. Place the coated balls on a parchment or wax paper lined pan and refrigerate 2-3 hours or more before serving. Keep in an air tight container in the refrigerator for up to a week. You can also freeze them.

*Tip: The dough is real sticky, so coat your hands with no stick spray or an equivalent to keep the dough from sticking to your hands.

*For a festive look, we did color our coconut with food coloring, but that is optional.
