

Simple Pumpkin Cookies

Ingredients:

- 1 egg
- 2/3 cup pure canned pumpkin
- 1/2 tsp cinnamon
- 1 1/2 cups whole wheat flour

Directions:

Preheat the oven to 350 degrees. Combine the egg, pumpkin and cinnamon. Slowly add in flour until the dough is nice and stiff. Put whole wheat flour on the counter and roll the dough out to 1/4 inch on top of it. Use cookie cutters to cut out your favorite shapes. Place cookies on a no stick or parchment paper lined cookie sheet. Bake cookies for 40 minutes. They should be nice and crisp before you take them out. Droll, while you let them cool, and serve.
